Rooted Chrysanthemum Cuttings

MIKKELSEN & SONS GREENHOUSES

2% discount if current invoice is paid in 10 days.

2% discount if order is placed 6 months prior to shipping.

1% discount for continuity of order.

Continuity to mean the regular planting of varieties over a period of time rather than a large amount of one variety for only one planting. This discount will be at our discretion.

5% discount if total order is 10 to 25 thousand rooted cuttings.

10% discount if total order is 25 to 50 thousand rooted cuttings.

15% discount if total order is 50 to 100 thousand rooted cuttings.

20% discount if total order is over 100 thousand rooted cuttings.

Thus, if an order for 100 thousand cuttings were to be placed 6 months in advance and calls for varieties to be used in somewhat constant amounts at regular intervals and current invoices are paid in 10 days, a total of 25% discount from the price schedule would be given. Similarly, corresponding amounts, if less than 100 thousand are ordered, would be allowed.

PRICE SCHEDULE PER 100 OF ANY ONE VARIETY

<u>Base Price</u>	<u>100 - 450</u>	<u>500 - 950</u>	<u>1000 - 2450</u>	<u>2500 and up</u>

MIKKELSEN & SONS GREENHOUSES

WHITE POMPONS, ANEMONES, AND SINGLES:

White Memorial--Mikkelsen--November 12 (10-week)

A clean, distinctive white sport of Memorial. Tends to be a more formal type flower when finishing than Memorial. A very productive white anemone.

Illini Starlet--Univ of Illinois--December 10(13-week)

A high-quality white anemone for growing in spray form. The production is good and of uniform quality--no weak shoots. It is a clean grower and easy to cut and bunch. The flowers remain in good condition on the plant for a long time and possess unusually good keeping qualities. A much-needed anemone for this season.

White Riviera--Mikkelsen--December 15 (14-week)

Although not quite as productive as Riviera, it helps to fill the gap in white winter varieties.

YELLOW POMPONS, ANEMONES, AND SINGLES:

Yellow Elizabeth Hood--Mikkelsen--October 15 (8-week)

A sport of Elizabeth Hood which shows much promise as an 8-week variety. Especially good for April, May and June flowering in the greenhouse.

Cream Halo --Mikkelsen--November 1 (9-week)

A soft candlelight white sport of Halo. Very well accepted by the retail trade.

Yellow Beauregard--Mikkelsen--November 5 (10-week)

A sport of Beauregard which tends to be a golden yellow. Not quite the flower form of Beauregard, but possesses all the other characters of that excellent variety.

Illini Golden Yellow Snowbound--Mikkelsen--January 5 (15-week)

Golden yellow sport of Illini Yellow Snowbound. This variety needs low temperatures to finish.

PINK POMPONS, ANEMONES, AND SINGLES:

Cover Girl--Winkler--November 10 (10-week)

Light pink anemone with cream-yellow cushion, medium size, and good spray formation. Should become a popular anemone for early November flowering.

Carole--Winkler--November 15 (11-week)

Light pink anemone with cream-pink cushion and broad ray florets. Production is excellent and is maintained with good spray formation and stems.

Illini Formal--Univ of Illinois--November 23 (11-week)

This variety is a seedling of Bronze Masterpiece and Illini Tangier, and has many of the characteristics of the Masterpiece varieties with the added vigor of Illini Tangier. The rosy orchid-pink color is very pleasing and especially so when flowered out-of-doors in September and October or in the greenhouse, October-November and April-May. The flower form is distinctive.

Pink Cloud--Winkler--November 25 (12-week)

Light pink decorative with medium-large flower. A rather short but vigorous grower, with stiff stems and open spray formation.

Dark Serrated Riviera--Mikkelsen--December 15 (14-week)

Light Serrated Riviera--Mikkelsen--December 15 (14-week)

Both are sports of our original Serrated Riviera. Because of their form and color, they offer the trade some much-needed variety for the winter crops.

BRONZE AND RED POMPONS, ANEMONES, AND SINGLES:

Flame Glow--Winkler--November 5 (10-week)

Orange-bronze, medium-large single with broad ray florets. Ideal spray formation and excellent texture. Handles well from the flowering bench to the customer.

Bronze Thorobred--Mikkelsen--November 15 (10-week)

Bronze, almost red, sport of Thorobred. Tends to fade in summer but is excellent April-May and October-November.

NEW INTRODUCTIONS (continued) MIKKELSEN & SONS GREENHOUSES

BRONZE AND RED POMPONS, ANEMONES, AND SINGLES (continued):

Bronze Pandora--Mikkelsen--November 10 (10-week)

Bronze sport of Pandora. Very luminous under artificial light.

Bronicon--Mikkelsen--November 20 (11-week)

Bronze sport of Rusticon.

Illini Redwood--Univ. of Illinois--November 25 (12-week)

This variety is a large red-bronze pompon of high quality in flower substance, stem, and keeping qualities. It is fine for shading to flower in late September, October and early November. A clean grower and is easy to cut and bunch. Production is above average.

Red Minstrel--Mikkelsen--December 12 (13-week)

Richer and fuller color than the previous bronze sport of Minstrel. The same excellent texture, form and production as Minstrel.

YELLOW STANDARD:

Lemon Mefo--Mikkelsen--November 15 (10-week)

A very distinctive lemon yellow sport of Mefo. Very double--does not tend to be single as does the older form of Yellow Mefo. Form and size comparable to the White Mefo.
